EDUCATION

Indian Institute of Information Technology Gwalior, Integrated B.Tech (Information Technology)

July 2019 - May 2024

EXPERIENCE

Software Engineer Intern @ Hashed By Deloitte

May 2024 - July 2024

Angular, Java SpringBoot

Bangalore, KA

- Developed an application using Angular for the front-end and Spring Boot for the back-end, integrating a PostgreSQL database and payment gateways
- Collaborated with a team to successfully migrate frontend services from Angular 6 to 16 and backend services from Spring Boot Java 8 to 17 for a smart test admin website ensuring cross-browser compatibility and a seamless user experience..
- Designed and implemented RESTful APIs using Java SpringBoot to facilitate data interaction, collaborating with cross-functional teams to meet client requirements in functional applications.
- Worked closely with design and development teams to integrate client requirements into visually appealing and functional applications, focusing on product design, functional design, and usability factors.

Software Engineer Intern @ Outshade Digital Media

Aug 2023 - Jan 2024

React.js, Node.js, MongoDB, Microfrontend

Remote

- Integrated backend and frontend components, enhancing system functionality through the creation of new API endpoints and addressing UI flaws with a focus on visual design, typography, and fonts..
- Implemented chat functionality using sockets, successfully integrating with Facebook APIs for seamless communication.
- Optimized a React.js **micro-frontend architecture**, resolving over **19 issues** to enhance optimization and responsiveness. These improvements significantly **increased the performance by 56%**.

SKILLS

Languages : Javascript,

Tools and Frameworks : React.Js, Docker

Database : PostgreSQL, MongoDB

Soft Skills : Collaborating, Communication, Collaboration, Ability to Learn, Leadership, Ownership

PROJECTS

Patient management application  

Next.js | Appwrite

- Developed a responsive application enabling patients to register, book multiple appointments, and receive SMS confirmations, while allowing administrators to manage, confirm, and cancel appointments efficiently.
- Implemented secure file upload functionality using Appwrite storage services for user data management.
- Integrated Sentry for real-time application performance tracking and error detection, ensuring optimal user experience. **GitHub**

Notion Application  

Next.js | TypeScript

- Implemented real-time database sync, dynamic light/dark mode, and secure authentication.
- Enabled efficient file management with upload, delete, and replace functionalities.
- Engineered features such as infinite nested documents and publishing to the web
- Integrated trash can for soft deletes and recovery of deleted files **GitHub**

LEADERSHIP

TREASURER Dec 2021 - Dec 2022

- Planned and executed various events, including the IEEE conference with over 500 guests.
- Managed all the branch finances, including budgeting, tracking spending, and reporting.

Volunteer in Marketing And Public Relations at Aurora Cultural College Fest.

AWARDS & HONORS

- Solved more than 500 DSA problems on Leetcode and coding Ninjas and Ranked Top 1% on the coding ninjas.
