Dev Johri

EDUCATION

Indian Institute of Information Technology Gwalior, Integrated B.Tech (Information Technology)   **July 2019 - May 2024**

EXPERIENCE

Software Engineer-1 @ Procol   **Mar 2025 - Now**
ReactJS, TypeScript, NodeJS   Gurgaon, HR

- Engineered scalable and performant React components using TypeScript, improving build speed and code consistency by 30%. '
- Worked on critical UI migrations and accessibility upgrades across custom component libraries, streamlining form logic, and enhancing usability for all users.
- Resolved 19+ bugs, significantly improving responsiveness and leading to a 15% boost in overall application performance.
- Launched multiple production-ready features, now live for all users, enhancing user engagement and experience by 10%.

Software Engineer Intern @ Hashed By Deloitte   **June 2024 - July 2024**
Angular, Java SpringBoot   Bangalore, KA

- Transformed Figma designs into a fully functional Angular 8 application, focusing on delivering a seamless user experience through responsive design and intuitive navigation.
- Developed and implemented APIs using Java Spring Boot, ensuring robust backend functionality for applications.
- Collaborated with a cross-functional team of 5 members to successfully migrate front-end services from Angular 8 to Angular 16 for a smart test admin application, resulting in improved performance and scalability.
- Collaborated with a 5-member cross-functional team to integrate client requirements, focusing on usability, functionality, and product design, resulting in a 20% increase in user engagement.

SKILLS

Languages : Javascript, TypeScript.

Tools and Frameworks : ReactJS, NodeJS, Docker.

Database : MySQL, MongoDB

Cloud : AWS

Soft Skills : Collaborating, Communication,Collaboration, Ability to Learn, Leadership, Ownership

PROJECTS

Globetrotter – AI-Powered Travel Guessing Game ↗
React.JS | Node.js

- **Cryptic Clue Challenges:** Users guess destinations from AI-generated clues, with a real-time leaderboard to track top performers.
- **Secure Social Gameplay:** Includes user authentication and a "Challenge a Friend" feature for interactive play.
- **Admin Control Panel:** Enables admins to manage users, destinations, and scores efficiently.
- **Optimized Scalable:** Redis caching ensures fast performance, and the architecture supports future enhancements seamlessly. **GitHub**

AI-Powered Interview Preparation Tool ↗ ↗
Next.js | Node.js

- **Comprehensive Feedback and Analysis:** Receive in-depth insights into your performance with actionable recommendations that clearly highlight strengths and areas for improvement.
- **AI-Powered Interview Questions:** Personalized questions to specific job descriptions and your level of experience, ensuring relevance and appropriate difficulty.
- **Customizable Interview Experiences:** Personalized sessions based on job roles and industry domains, delivering a highly targeted preparation journey.
- **Smart Performance Tracking:** View a summary score after each session and easily revisit previous interviews through a centralized dashboard. **GitHub**

AWARDS & HONORS

- Ranked Knight(1920+) @Leetcode and Ranked Top 1% on the coding Ninjas
- Pre-finalist in the 2019 IEEE Hexagon competition.
